

**MATERIAL SAFETY DATA SHEET**  
**U.S. DEPARTMENT OF LABOR - OSHA'S HAZARD COMMUNICATION STANDARD**  
(Utilized to comply with 29 CFR 1910.1200)

**SECTION 1 - PRODUCT/MANUFACTURER/DISTRIBUTOR'S IDENTITY**

Product Name: **STONEGUARD**

Product Use: Penetrating Sealer for Natural Stone

Date Prepared: November 1997

Date Last Revision: June 2001

DOT Hazard Class: Consumer Commodity (ORM-D) < 5-GL &  
Class 3 for > 5-GL containers during  
Ground Transportation Only

**H.M.I.S. Rating**

2 - Health

2 - Fire

0 - Reactivity

B - Maximum Personal  
Protection

**Rating Key**

4=Extreme

3=High

2=Moderate

1=Slight

0=Insignificant

**Manufactured For:**

**Stone Care International, Inc.**

**P.O. Box #703**

**Owings Mills, Maryland 21117-0703**

**Phone: 410-363-8788**

**24 Hour Response for Medical and Spill Emergencies call: 1-800-535-5053.**

**SECTION 2 - HAZARDOUS INGREDIENTS/IDENTITY INFORMATION**

<u>Hazardous Chemical Identity</u>	<u>CAS No.</u>	<u>%</u>	<u>PEL (OSHA)</u>	<u>TLV (ACGIH)</u>	<u>LD50</u>	<u>LC50</u>
Mineral Spirits	8052-41-3	≥ 80.00	100 ppm TWA	100 ppm TWA		
Acrylic Resin (Containing the following Hazardous Components)		≤ 20.00				
Isobutyl Methacrylate	97-86-9		N.A.	N.E.	N.E.	
Pertroleum Ether	8032-32-4		N.A.	200 ppm	300 ppm	
N-Butyl Acetate	123-86-4		N.A.	Unknown	Unknown	

This formula is a proprietary mixture with no other known hazardous ingredients. NJTSR # 0040 VOC Content: <10 g/L

**SECTION 3 - PHYSICAL/CHEMICAL CHARACTERISTICS**

Color: Clear      Odor: Hydrocarbon/Solvent      Physical State: Liquid      PH: N.A.  
Boiling Point: 315–394° F      Freezing Point: 1° F      Melting Point: 1° F      % Volatile: 90%  
Vapor Pressure (mm HG): 2mm @ 68° F; 6mm @ 100° F      Vapor Density (Air = 1): 4.0 est.      Specific Gravity (H<sub>2</sub>O = 1): 0.80 @ 60  
Evaporation Rate (n-butyl Acetate = 1): < 0.      Solubility in Water: < 0.01 @ 77° F      Specific Gravity of Vapor @ 1 atm (Air = 1): 3.50 Calculated

**SECTION 4 - FIRE AND EXPLOSION HAZARD DATA**

Flash Point and Method: 104° F (Closed Cup)      Flammable Limits: N.A.      Auto-ignition Temperature: 490° F EST.

Explosive Limits in Air @ 77° F: LEL: 2.1 UEL: 13.3

Sensitivity to Mechanical Impact: Yes, if any type of spark or electrical discharge will be created.

Sensitivity to Static Charge: Yes, ground all electrical equipment before using with this product.

**Extinguishing Media:** Use water spray or water fog, foam, dry-chemical or CO<sub>2</sub> materials. DO NOT USE A DIRECT STREAM OF WATER as product is lighter than water, will float, and can be reignited on the surface of the water.

**Special Fire Fighting Procedures:** **COMBUSTIBLE LIQUID** – Wear NIOSH approved self-contained breathing apparatus in positive pressure mode. DO NOT enter confined space without full bunker gear, helmet with face shield, bunker coats, gloves and rubber boots. ISOLATE FUEL SUPPLY from fire.

**Unusual Fire and Explosion Hazards:** **COOL CONTAINERS EXPOSED TO INTENSE HEAT** from fires with water to prevent vapor pressure buildup, which can result in container rupture and scattering of flammable materials. Container areas exposed to direct flame contact should be cooled with large quantities of water as needed to prevent weakening of container structure. AVOID SPRAYING WATER DIRECTLY INTO STORAGE CONTAINER DUE TO DANGER OF BOIL OVER.

**Decomposition Products Resulting from Fire Conditions:** None Unusual Known

**General Hazard Information:** This product is a combustible liquid that can form combustible mixtures at temperatures at or above the flashpoint. Additionally, this material can accumulate static charges, which can cause an incendiary electrical discharge. EMPTY CONTAINER CONTAINS PRODUCT RESIDUE (LIQUID &/OR VAPOR) THAT CAN BE DANGEROUS. Empty drums should be completely drained, properly bunged and promptly returned to a drum reconditioning facility or disposed of properly in accordance with local and federal statutes. DO NOT PRESSURIZE, CUT, WELD, BRAZE, SOLDER, DRILL, GRIND, OR EXPOSE SUCH CONTAINERS TO HEAT, FLAME, SPARKS, STATIC ELECTRICITY OR OTHER SOURCES OF IGNITION – THEY MAY EXPLODE AND CAUSE INJURY OR EVEN DEATH.

THE LIQUID IS VOLATILE AND GIVES OFF VAPORS. EITHER THE LIQUID OR VAPORS MAY SETTLE IN LOW AREAS OR TRAVEL SOME DISTANCE ALONG THE GROUND OR SURFACE TO IGNITION SOURCES, WHERE THEY MAY IGNITE OR EXPLODE.

*Continued on Next Page*

## **SECTION 5 - REACTIVITY DATA**

Chemical Stability: Stable (Yes) Incompatibility (Materials to Avoid): Halogens, molten sulfur, strong oxidizing agents, strong acids and select amines.  
Hazardous Decomposition of ByProducts: Carbon Monoxide (CO) and unidentified organic compounds may be formed.  
Hazardous Polymerization: Will not occur

Conditions To Avoid: **KEEP AWAY FROM ALL SOURCES OF IGNITION**

## **SECTION 6 - HEALTH HAZARD DATA/TOXICOLOGICAL PROPERTIES**

Routes of Entry: Ingestion, Skin Contact, Inhalation, Eye Contact Sensitization: None Toxicologically Synergistic Products: None Known  
Carcinogenicity: None Known Teratogenicity: None Known Mutagenicity: None Known Reproductive Toxicity: None Known

Medical Conditions Aggravated by Exposure: Respiratory, Pulmonary Liver and Kidney as well as Central Nervous System (CNS) and Gastrointestinal (Stomach) Disorders.

### **EFFECTS OF OVEREXPOSURE (Acute and/or Chronic):**

**Ingestion: HARMFUL IF SWALLOWED.** Causes vomiting, nausea, diarrhea, irritation of the digestive tract, drowsiness, dizziness or loss of coordination. Can enter lungs during swallowing or vomiting and causing inflammation and/or damage.  
**Skin:** Mild irritation, drying of the skin, redness or burning sensation; May cause allergic skin reaction or dermatitis may occur from repeated or excessive contact. Low order of toxicity.  
**Eyes:** Severe irritation or burningsensation; Discomfort may occur from direct contact or vapors.  
**Inhalation: HARMFUL IF INHALED.** Prolonged or excessive inhalation of vapors or aerosol concentrations (greater than 1000 ppm) can cause Dizziness, Loss of Coordination, Headaches, Irritation or Burns to the respiratory tract that may not be immediately visible or painful. Can cause Central Nervous System (CNS) depression leading to unconsciousness or death

### **EMERGENCY FIRST AID PROCEDURES - NOTE TO PHYSICIANS**

**Ingestion: DO NOT INDUCE VOMITING.** If individual is conscious, drink 3-4 large glasses of water followed by mineral oil or egg whites. NEVER GIVE FLUIDS BY MOUTH TO AN UNCONSCIOUS PERSON. SEEK MEDICAL TREATMENT IMMEDIATELY.  
**Skin:** Flush with a large amount of water for at least 15-20 minutes. Remove contaminated clothing. Wash with a gentle soap and water, paying particular attention to under the fingernails. Get immediate medical attention, if irritation or burning sensation persists. Wash clothing before reuse.  
**Eyes:** Flush with large amounts of water for at least 20 minutes holding eyelids open. If discomfort or irritation persists, seek medical attention immediately.  
**Inhalation:** If affected, remove individual to fresh air. If breathing is difficult or symptoms persist, seek medical attention immediately. Qualified personnel can give artificial respiration, utilizing proper personal protective measures, if breathing has stopped.

## **SECTION 7- PRECAUTIONS FOR SAFE HANDLING AND USE**

**Steps To Be Taken If Material Is Spilled Or Released:** Ventilate the area. Remove or eliminate potential sources of ignition. Wear proper Personal Protective Equipment. Contain the spill by building a dike using inert absorbent material. Collect the remainder of the spill with inert absorbent material, scoop up material using non-sparking tools (plastic or other applicable material) and place into a waste disposal container. Flush area with water. Drain to sewer with large quantities of water if permitted by regulatory authorities or absorb on inert material (sand, clay, etc.) and place into container for proper disposal. Do not allow draining into public waterways.

**Waste Disposal:** Dispose of as permitted by methods in accordance with applicable laws of all federal, provincial, state and local regulatory authorities.

**Precautions to Be Taken in Handling & Storage:** *Keep out of the reach of children and animals. Keep Away from Food and Feedstuffs.* Store upright in a cool, dry, well-ventilated area out of direct sunlight. Do not expose to freezing conditions, less than or equal to 32° F, or heat above 110° F. Keep caps or drum bungs sealed tightly when not immediately in use. Utilize proper grounding procedures during storage or product transfer operations. Keep all storage doors locked. Empty containers will contain vapor and product residue that is potentially combustible— DO NOT REUSE CONTAINERS WITHOUT PROPER COMMERCIAL CLEANING OR RECONDITIONING. ELECTROSTATIC ACCUMULATION HAZARD EXISTS PROPER CAUTION SHOULD BE USED.

## **SECTION 8 – CONTROL MEASURES**

**Respiratory Protection:** Use in well-ventilated areas only, open all doors and windows. Use a local or mechanical exhaust system if available to remove vapors. Avoid prolonged or repeated breathing or vapors. If overexposure potential exists or exposure levels are likely to exceed the IDLH limits, a NIOSH/MSHA approved respirator equipped for the exposure or suitable respiratory protection per 29 CFR 1910.134 is required in the absence of proper environmental control.  
**Protective Gloves:** Use only with natural rubber, Nitrile, or other chemical resistant gloves. Have water available to rinse off skin after contact with product.  
**Protective Clothing and Equipment:** Use impervious natural rubber to prevent clothes from getting wet.  
**Eye Protection:** Splash proof goggles or glasses with side shields should be used for any type of handling. Eye Wash station should be readily available.  
**Hygienic and Work Practices:** Use common sense and care around chemicals. Never mix chemical products. Wash hands with gentle soap and water after each use. Air dry and wash contaminated clothing before reuse. *Keep out of reach of children and animals. Keep Away from Food and Feedstuffs.*

## **SECTION 9 – DOMESTIC & INTERNATIONAL SHIPPING INFORMATION:**

### **Domestic Transportation Information**

DOT Shipping Name: *ORM-D (Consumer Commodity)* for less than 5-gallon containers during ground transportation only;

*Petroleum Distillates, N.O.S.* for quantities of 5 gallons or more during ground transportation and for all quantities during air shipments

DOT Hazard Class: *Flammable Liquid— Class 3* for quantities of 5 gallons or more during ground transportation and for all quantities during air shipments

UN/NA Number: *UN 1268* for quantities of 5 gallons or more during ground transportation and for all quantities during air shipments

Packing Group Number (PG): *III* for quantities of 5 gallons or more during ground transportation and for all quantities during air shipments

**STONEGUARD MSDS – Page 3**

**International Transportation Information:** Same as above, except that ORMD exemptions and quantity limitations are not recognized

Shipping Name: *Petroleum Distillates, N.O.S.* IMDG Page Number: 3375  
Hazard Class: 3.3 (*Flammable Liquid*) EmS Number: 3-07  
UN Number: *UN 1268* MFAG Table No.: 311  
Packing Group Number (PG): *III*

**Note:** Package labeling required for shipments containing single 5 gallon or larger containers and placarding for shipments exceeding 1,001 lbs

---

**SECTION 10 – REGULATORY INFORMATION:**

**TSCA:** All chemical components incorporated into this product are found on the TSCA Inventory List

**CERCLA:** \*

**SARA TITLE III(311/312 Hazard Categories):** \*

**SARA TITLE III (313 Reportable Ingredients):** \*

**CALIFORNIA PROPOSITION 65:** \*

**EPA HAZARD WASTE CLASSIFICATION:** *D001, Ignitable Waste*
