# SO-O-O EZ

## Foaming, Lemon-Scented Liquid Oven & Grill Cleaner

Appearance ..... Light Amber Liquid  
Odor ..... Lemon Fragrance  
pH (1% Soln.) ..... 13.0  
Solubility ..... Complete

Biodegradable

Manufactured to  
ISO 9002  
Specifications

**NFPA 704 Hazard Rating:**  
4=Extreme, 3=High, 2=Moderate  
1=Slight, 0=Minimal

**Rating for this product:**

Health ..... 2 ..... Hazardous  
Fire ..... 0 ..... Will Not Burn  
Reactivity ... 0 ..... Stable

**EMERGENCY: (800) 535-5053**

**24 Hour MSDS Information**

**Other Useful Products:**

<b>PRODUCT NAME</b>	<b>PROD CODE</b>
<b>Aqua Klear</b> ..... enzyme grease trap cleaner	R2300
<b>Drain Power</b> ..... 93% sulfuric acid drain opener	BO341
<b>Stainless Steel Cln</b> ..... stainless steel cleaner & polish	R6500

### DESCRIPTION

- SO-O-O EZ contains caustic, builders, surfactants and grease emulsifiers that cut through and remove thick grease, fat, protein and baked-on soils quickly and easily. This is the one for those really tough jobs.
- Use it on ovens, grills, broilers, hoods, enamel, stainless steel and iron. Do not use on aluminum or galvanize. Repeated use on painted surfaces will cause dulling and eventual flaking.
- SO-O-O EZ is economical. It replaces costly aerosols. And it is easy to apply. Simply spray or brush on.
- It also cleans drains and deep fat fryers.
- SO-O-O EZ contains water conditioners so it works in hard water, rinses clean and leaves no residue. It's **biodegradable**, too.

### DIRECTIONS

Wear rubber gloves and avoid direct skin contact with SO-O-O EZ.

Use with care on painted surfaces. Will etch and pit aluminum, tin and zinc-plate (galvanize).

**Removing Baked-on Soils and Carbon:**

Surface should be warm, but not hot for best results. Apply undiluted with a brush, sponge, paint roller or low-pressure sprayer on surfaces cooler than 160° F. Let stand for 20 to 30 minutes. Brush to remove heavy soils and encrustations. Wipe off with a sponge using a clean water rinse. Neutralize with 1 cup vinegar and enough water to make a gallon of solution. You may dilute SO-O-O EZ with up to 5 parts of water for lighter soils on horizontal surfaces.

**Hot Tank Cleaning:**

Dilute with up to 5 parts of water to clean small equipment. Heating solution to 180° - 200° F speeds up and improves cleaning. Let soak for 20 to 30 minutes. Rinse clean with water. Neutralize parts with 1 cup vinegar and enough water to make a gallon of solution.

### DIRECTIONS

**Deep Fat Fryers:**

Dilute with up to 5 parts of water depending on how much grease there is. Heat the solution to 180° - 200° F for 15 to 20 minutes. Rinse thoroughly with water. Neutralize fryer with 1 cup vinegar and enough water to make a gallon of solution.

**Drain Cleaning:**

Add 1 pint of SO-O-O EZ to each drain weekly.

**Heavy Duty Floor Cleaning:**

Use 1 quart to 5 gallons of water. Mop floor. Change the solution often. Rinse floor and clean again if any residue is present. Rinse with 1 cup of vinegar and enough water to make a gallon of solution.

**Hoods, Filters and Ventilators:**

Do not use on aluminum or galvanize. Apply undiluted with a brush or sponge. Let stand for 20 to 30 minutes. Brush to remove heavy soils and encrustations. Wipe off with a sponge using a clean water rinse. Neutralize with 1 cup vinegar and enough water to make a gallon of solution.

### DANGER

**MAY CAUSE BURNS. HARMFUL IF SWALLOWED. Contains sodium hydroxide and ethylene glycol monobutyl ether.** Avoid contact with skin, eyes and mucous membranes. When handling, wear rubber or plastic gloves. Use only in well ventilated areas. Remove contaminated clothing and laundry before reusing.

**FIRST AID**

**EYES:** Flush with water for 15 minutes then seek medical attention.

**SKIN:** Wash thoroughly with water then wash with vinegar. If irritation persists seek medical attention.

**INGESTION:** DO NOT induce vomiting. Give large quantities of water follow with citrus juice. If vomiting occurs, keep airways clear and give fluids again. Seek medical attention.

**KEEP OUT OF REACH OF CHILDREN**

# MATERIAL SAFETY DATA SHEET

**EMERGENCY: (800) 535-5053**

**Product Name:** So-o-o Ez

**Product Code:** R4100

**Proper Shipping Name:** Sodium hydroxide, solution, 8, UN1824, PG II, E.R.G. #154

**Manufactured by:** EXSL/Ultra Labs, Inc.

**Effective Date:** 7/13/01

**Supersedes:** 8/11/98

## HAZARDOUS INGREDIENTS

	CAS#	PCNT%	TWA	STEL	SARA III	PROP 65	Carcinogen
Sodium Hydroxide	1310-73-2	2.35	2 mg/m <sup>3</sup>	None	No	No	No
Ethylene Glycol Monobutyl Ether	111-76-2	2.30	121 mg/m <sup>3</sup>	None	No	No	No
Tetra Sodium EDTA	64-02-8	1.70	None	None	No	No	No

## PHYSICAL DATA

**Boiling Point:** 235° F  
**Specific Gravity:** 1.080  
**pH:** (Conc.) 13.0  
**Evaporation Rate:** Not Avail.  
**Reactivity in Water:** None  
**Viscosity:** 20 cps  
**Solubility:** Complete  
**Melting Point:** Not App.  
**Vapor Pressure:** Not Avail.  
**Vapor Density:** Not Avail.  
**Volatiles:** 85%

## FIRE & EXPLOSION DATA

**Health:**..... 2 ... Hazardous  
**Fire:**..... 0 ... Will Not Burn  
**Reactivity:**..... 0 ... Stable  
**NFPA 704 Hazard Rating**  
4 = Extreme, 3 = High, 2 = Moderate  
1 = Slight, 0 = Minimal  
**Flash Point:** None (Cleveland Open Cup)  
**Flammability Levels (LEL/UEL):** Not Avail.

**Extinguishing Media:**..... This product is not combustible. Use water spray, foam, carbon dioxide, or dry chemical.

**Fire & Explosion Hazard:**... None.

**Conditions to Avoid:**..... Open flames, welding arcs or other high temperature sources that induce thermal decomposition, which produce toxic fumes.

## REACTIVITY DATA

**Materials to Avoid:** Strong acids.

**Stability:** Stable

**Hazardous Decomposition Products:** None

**Hazardous Polymerization:** Will not occur.

## HEALTH HAZARDS

**Eye Contact:**..... Causes severe burns. Prolonged and repeated contact can cause blindness.

**Skin Contact:**..... Causes severe burns and is destructive to tissue.

**Ingestion:**..... Can cause severe burns and complete tissue perforation of mucous membranes of the mouth, throat, esophagus and stomach.

**Inhalation:**..... Spray or mist can burn the upper respiratory tract.

## FIRST AID

**Eyes:**..... Flush out immediately for at least 20 minutes with running water and seek medical attention. Washing eyes within one minute is essential to minimizing eye damage. Hold eyelids apart to ensure flushing of the entire surface.

**Skin:**..... Immediately wash with plenty of water for at least 15 minutes. Remove contaminated clothing and footwear and wash before reusing. Seek medical attention.

**Ingestion:**..... Never give anything to an unconscious person. If swallowed, **do not** induce vomiting. Give large quantities of water or milk. If vomiting occurs, keep airways clear. Seek medical attention.

**Inhalation:**... Move person to fresh air and away from exposure. If breathing is difficult, administer oxygen and seek medical attention. Give artificial respiration if victim is not breathing.

## SPILL OR LEAK PROCEDURES

### Steps to Contain:

ELIMINATE all ignition sources (no smoking, flares, sparks or flames in immediate area). Stop leaks if you can do it without risk. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing (rubber boots and gloves). Contain spills with dry earth, sand or other non-combustible material and transfer to containers. Sweep up powder spills and transfer to containers. DO NOT GET WATER INSIDE CONTAINERS.

### Recommended Waste Disposal Method:

The materials resulting from the clean up may be hazardous waste and, therefore, subject to specific regulations. Package, store, transport, and dispose all clean-up materials and any contaminated equipment in accordance with all applicable federal, state, and local health environmental regulations. Shipments of waste materials are subject to manifesting requirements per applicable regulations. Ensure that all responsible federal, state, and local agencies receive proper notification of spills and disposal methods.

## SPECIAL PROTECTION & PRECAUTIONS

**Respiratory:**..... None under normal use conditions.

**Eye:**..... Goggles or face shield.

**Storage:**..... Keep in a cool, dry place.

**Clothing:**..... Recommend wearing rubber or polymer gloves.

**Comments:**... Use adequate local exhaust ventilation.

**Handling:**..... Do not stack or palletize over three high.

## USER'S RESPONSIBILITY

It is the user's responsibility to provide a safe workplace. He or she should consider the health hazard and safety information contained herein as a guide and take those precautions required in an individual operation to instruct employees and develop work practice procedures for a safe work environment.

The information contained herein is, to the best of our knowledge and belief, accurate. However, since the conditions of handling and use are beyond our control, we make no guarantee of results, and assume no liability for damages incurred by use of this material. It is the responsibility of the user to comply with all applicable federal, state, and local laws and regulations.
